

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADADate of filing in State Engineer's Office SEP 17 1976Returned to applicant for correction NOV 15 1976Corrected application filed DEC 6 1976Map filed SEP 17 1976 under 30647The applicant Day Cattle Co., Inc.

\_\_\_\_\_, of Beowawe,  
Street and No. or P.O. Box No. City or Town  
Nevada 89821, hereby make application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorpora-  
tion; if a copartnership or association, give names of members.) 6/68 Carson City, Nv

1. The source of the proposed appropriation is Underground  
Name of stream, lake or other source.

2. The amount of water applied for is 5.4 cfs second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet \_\_\_\_\_ acre-feet

3. The water to be used for irrigation  
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) 3185 from accompanying map by  
planimeter

(b) Stockwater (state number and kinds of animals to be watered) \_\_\_\_\_

(c) Other use (describe fully under "No. 12. Remarks") \_\_\_\_\_

(d) Power:

(1) Horsepower developed \_\_\_\_\_

(2) Point of return of water to stream \_\_\_\_\_

5. The water is to be diverted from its source at the following point: in the NW $\frac{1}{4}$ SE $\frac{1}{4}$  Sec. 28,

T.32N., R.49E. MDB&M; or a point from which the NE corner of said

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

Sec. 28 bears N.34°46'E. 3600 ft.

it should be stated.

6. Place of use See attached sheet  
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about March 1 and end about November 1, of each year.  
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and  
specifications of your diversion or storage works.) pump, well, pipeline and ditches

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works over \$1000.....
10. Estimated time required to construct works 4 years.....
11. Estimated time required to complete the application to beneficial use 5 years.....
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is supplemental to existing Humboldt River rights.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 5.4 cubic feet per second, but not to exceed a seasonal duty of 3.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before December 16, 1977

Proof of commencement of work shall be filed before January 16, 1978

Work must be prosecuted with reasonable diligence and be completed on or before December 16, 1978

Proof of completion of work shall be filed before January 16, 1979

Application of water to beneficial use shall be made on or before December 16, 1981

Proof of the application of water to beneficial use shall be filed on or before January 16, 1982

Map in support of proof of beneficial use shall be filed on or before January 16, 1982

Commencement of work filed JAN 30 1978  
Completion of work filed  
Proof of beneficial use filed  
Cultural map filed  
Certificate No. Issued
